1. INTRODUCTION

Background

Wheeler Land LP (Developer) petitioned Olivehurst Public Utility District (District) to form a Mello-Roos Community Facilities District to fund major water system, sewer system, and park improvements serving the Wheeler Ranch development in the spring of 2005. The Board of Directors (Board) for the District acted upon the petition in approving a Resolution of Intention to form the North Plumas Lake Community Facilities District No. 2005-1 (Wheeler Ranch) (CFD) at their regular meeting on June 16, 2005. The CFD was formed at the regular Board meeting of September 15, 2005.

The base year for assigning the maximum annual special tax was Fiscal Year (FY) 2005-06. By the time of the September 2005 formation of the CFD it was too late to place the special tax levy on the FY 2005-06 tax roll. Representatives of the Developer indicated that it was the Developer's desire to only levy the special tax when CFD bonds were to be sold.

In the summer of 2007 the Developer asked the District to consider the issuance of CFD bonds. As a result, the District first levied the special tax in the CFD in FY 2007-08. CFD bonds have not yet been issued as of the date of this report.

The Developers of the project have filed for bankruptcy. Representatives of the bankruptcy trustee have met with the District and its Financing Team to discuss the status of executed agreements between the District and Empire Land. The agreements include the Acquisition Agreement, Reimbursement Agreement, and Park Development Agreement.

The Developer was required by the County of Yuba, as a condition of approval of the final map for Phase I of Wheeler Ranch, to construct certain public improvements, such as roadway, drainage, park, water, and sewer improvements. Under the terms of the Acquisition Agreement and Reimbursement Agreement, the Developer could be reimbursed some of the costs of constructing water, sewer, and park improvements. The Developer constructed water and sewer improvements required to serve Phase I of Wheeler Ranch. The Developer has not completed park improvements as required of the Park Development Agreement, and has not completed all roadway and drainage improvements as of this date.

Representatives of the bankruptcy trustee have asked the District to provide a portion of the funding allowed under the Acquisition Agreement and Reimbursement Agreement in order to allow for the construction of four neighborhood parks, and completion of roadway and drainage improvements needed to serve Phase I of Wheeler Ranch. Additional funds available under these agreements that are not needed to fund public improvements would be used to partially reimburse creditors in the bankruptcy proceedings for Wheeler Land LP.

In return, the District would agree to attempt to issue CFD bonds secured by a reduced special tax levy for "developed parcels" in the CFD. The District has levied the maximum amount of annual special tax on all taxable parcels in the previous two fiscal years. Under the terms of the proposed agreement, the special tax levy on parcels with a building permit for residential uses

would be 50 percent of the maximum annual special tax. Other parcels without a building permit would not be taxed in the current fiscal year.

The Project and CFD

Wheeler Ranch has an approved tentative map that would create 1,142 single-family residential units on approximately 244 acres. Final maps have been recorded for Phase I of Wheeler Ranch creating 667 single-family residential lots.

The CFD is authorized to issue up to \$25.0 million in CFD bond debt to fund the acquisition or construction of water, sewer, and park facilities to be owned and operated by the District. The Developer has constructed water treatment facilities and major backbone water and sewer infrastructure to serve the Wheeler Ranch development. The facilities are authorized to be acquired by the District with special tax revenue proceeds, CFD bonds, or a combination of both.

Organization of this Report

This report serves as the Annual Tax Report required by the Mello-Roos Act. This report discusses parcels included in the CFD, the calculation of annual costs, and the allocation of the special tax to parcels. **Chapter II** discusses land uses in the CFD. **Chapter III** discusses the assignment of the maximum annual special tax. **Chapter IV** discusses the calculation of the FY 2009–10 tax levy.

There is one exhibit attached to the report. **Exhibit A** contains the list of all CFD parcels and the proposed amount of special tax levy for FY 2009–10. The Board may direct District staff to levy alternate levels of the special tax, as allowed under the Special Tax Formula, for FY 2009-10, as based on the defined annual costs of the CFD, further described in **Chapter III**.

2. *CFD LAND USES AND ASSIGNMENT OF THE MAXIMUM ANNUAL SPECIAL TAX*

CFD Land Uses

The area included within the boundaries of the CFD consists of a total of approximately 403 acres. It is estimated that 1,142 single-family residential units will be developed on approximately 244 acres. The remaining 159 acres is will be designated for commercial and public uses such as schools, parks, open space, drainage, and public right-of-way (roads, including landscaped corridors). Only residential uses will be taxed in the CFD

Table 1 the phases and units proposed for development in the CFD. Phase I has been subdivided in 667 lots.

Building Permits Issued to Date

As of the FY 2008-09 special tax levy there were 486 building permits issued for Phase I lots. However, K Hovnanian requested a refund of fees paid for 28 of these building permits during FY 2008-09. The County of Yuba "cancelled" these 28 building permits. Under the terms of the Special Tax Formula, these 28 parcels were reclassified as Final Map Parcels. As of the date of this report, there are 458 lots with building permits issued for construction of single family residences. These parcels are considered Developed Parcels under the Special Tax Formula.

The remaining 209 Final Map Lots did not have building permits as of the end of June 2009. Phase II has not been subdivided and is classified as an Undeveloped Parcel under the Special Tax Formula.

Subdivisions Creating New Taxable Parcels for FY 2009-10

There were no subdivisions of Large Lot Parcels or Undeveloped Parcels in FY 2008-09 creating new Taxable Parcels for FY 2009-10.

Table 1
Olivehurst Public Utilities District
North Plumas Lake CFD No. 2005-1 (Wheeler Ranch)
CFD Parcels for FY 2009-10

Phase and Unit	Net Acres	Assigned Units	Average Lot Size	Developed Parcels [1]	Final Map Parcels
Phase I					
1-2	27.73	146	7,535	93	53
1-3	22.90	106	8,580	29	77
1-4	22.87	92	9,900	92	0
1-5	33.95	148	8,580	148	0
1-6	17.05	89	7,260	79	10
1-7	17.56	86	7,260	17	69
Phase II					
	<i>net acres</i>				
2-1	22.06	109	8,580	0	0
2-2	23.08	117	7,260	0	0
2-3	13.72	74	7,260	0	0
2-4	23.40	93	10,275	0	0
2-5	19.78	82	8,580	0	0
Totals	244.10	1,142		458	209

"parcels"

[1] K Hovnanian cancelled 28 permits in FY 2008-09. The Special Tax Formula does not specify that a parcel, once designated as a Developed Parcel, shall remain a Developed Parcel as defined in the Special Tax Formula. Therefore, there are 28 fewer Developed Parcels for FY 2009-10 than shown for FY 2008-09.

Source: KASL Consulting Engineers, Yuba County Building Department, and Yuba County Assessor.

3. CALCULATION OF FY 2009–10 SPECIAL TAX LEVY

Compute the Annual Costs of the CFD

The Annual Costs for the CFD are the total dollar amount of expenditure items that must be funded in FY 2009–10. The Annual Costs for FY 2009–10 are \$377,337, as shown in **Table 2**. Annual Costs of the CFD for FY 2008-09 were \$1,951,480.

Annual Costs consist of the following items:

1. Annual debt service requirement;
2. Administrative expenses;
3. The amount needed to replenish the reserve fund for the bonds to the level required under the Bond Indenture;
4. Any amounts needed to cure actual or projected delinquencies in collecting the special tax; and
5. Pay-As-You-Go Expenditures (if any).

Annual Debt Service Requirement

No CFD bonds have been issued, but CFD bonds are anticipated to be issued in FY 2009-10. Economic & Planning Systems, Inc. (EPS) has estimated that the District could issue approximately \$3.4 million in CFD bonds based on a special tax levy of 50 percent of the maximum annual special tax for all Developed Parcels. Debt service on a CFD bond issue of \$3.4 million would be approximately \$328,119.

CFD bond estimates are shown in **Table 3**. The proposed CFD bond issuance assumes an interest rate of 9 percent for a 30-year bond term. The proposed special tax levy for FY 2009-10 would be sufficient to pay debt service for principal and interest payments required for 2010, so there is no allowance for capitalized interest. A CFD bond reserve fund of approximately 9.7 percent will reduce the amount of net bond proceeds available. EPS estimates bond issuance costs of approximately 7 percent. The Plumas Lake CFD No. 2002-1 Series 2008 Bonds had an issuance cost of approximately 11 percent of the total bond issuance.

The actual CFD bond issuance and net proceeds available will be determined by market conditions at the time of the bond issuance. **Table 3** is presented as an estimate for the purpose of establishing Annual Costs for FY 2009-10.

Any proposed CFD bond issue would be constrained by the revenue available from levying the special tax at 50 percent of the maximum annual special tax for Developed Parcels. The annual debt service requirement and CFD administration (further described below) would be funded by this revenue stream. Final Map Parcels and Undeveloped Parcels would not be subject to the annual special tax levy. Final Map Parcels are owned by K Hovnanian. The Undeveloped Parcel, which was owned by Wheeler Land LP, would also not be subject to the annual special tax levy.

Table 2
Olivehurst Public Utilities District
North Plumas Lake CFD No. 2005-1 (Wheeler Ranch)
Estimated Annual Cost for FY 2009-10

Item	Amount
Estimated Debt Service [1]	\$328,119
CFD Administration Expense [2]	\$49,218
Replenishment of Bond Reserve Fund	\$0
Allowance for Special Tax Delinquencies	\$0
Pay-As-You-Go Expenditures	\$0
Total Estimated Annual Costs for FY 2009-10	\$377,337

"costs"

[1] This is a preliminary estimate of the debt service requirement for 2010.

[2] The Special Tax Formula allows the District to fund certain administrative costs of the CFD each fiscal year. Such costs include (but are not limited to) costs of computing Special Taxes and annual collection schedules, collecting the Special Tax, of responding to public inquiries, of the appeal of the amount of the Special Tax, and legal costs of the CFD.

Table 3
Olivehurst Public Utilities District
North Plumas Lake CFD No. 2005-1 (Wheeler Ranch)
Estimated Bond Issuance, Net Proceeds, and Annual Costs

Item	Assumption	Total
Gross Bond Issuance		\$3,400,000
Capitalized Interest [1]	0.00%	\$0
Bond Reserve Fund [2]	9.70%	\$329,800
Cost of Issuance [3]	7.00%	\$238,000
Net Bond Proceeds		\$2,832,200
 Estimated Annual Costs		
Annual Debt Service		\$328,119
CFD Admin Expense [4]	15.00%	\$49,218
Special Tax Coverage of Debt Service [5]	0.00%	\$0
Estimated Annual Costs (Rounded) [6]		\$377,337
 Bond Assumptions		
<i>Interest Rate</i>	9%	
<i>Term</i>	30 Years	
<i>Capitalized Interest</i>	0 Months	

"proceeds"

[1] If CFD bonds are issued by the end of 2009, there will be special tax revenues on hand to pay the first debt service payment in March of 2010.

[2] The bond reserve fund will be approximately 10% of gross CFD bonds issued.

[3] Cost of issuance is estimated to be 7% of the gross CFD bonds issued.

[4] The District assumes that cost of administration will be approximately \$50,000 annually.

[5] Special tax coverage is demonstrated by the ability of the District to levy an additional amount of special tax greater than debt service and administration costs at a rate of a minimum of 110% of annual debt requirements. The CFD bond sizing is based on 50% of the maximum amount of special tax that can be levied on Developed Parcels. So

the District will be able to demonstrate that debt service will be covered by a minimum of 200% of the special tax that could be levied on Developed Parcels.

[6] Annual Special Tax revenue from a 50% annual levy on Developed Parcels only.

Administrative Expenses

The District may levy special taxes to cover administrative expenses associated with the costs of administering the CFD. Administrative costs consist of, but are not limited to, District staff costs, tax administrator costs, legal fees, and County special tax collection fees. Total administrative expenses of the CFD are estimated to be \$49,218 for FY 2009–10.

Amount Required to Replenish Reserve Fund

No CFD bonds have been issued, so the bond reserve fund does not yet exist.

Amount Required to Cure Special Tax Delinquencies

Special tax delinquencies on Developed Parcels for FY 2008-09 are approximately 2 percent. Collecting an allowance for delinquent special taxes is performed to provide additional security for the timely payment of debt service. Since CFD bonds have yet to be issued, and there are funds available in the special tax fund, there will be no allowance for delinquent special taxes.

If delinquencies occur in future fiscal years at significant levels, the special tax levy for Developed Parcels may be increased above the current 50 percent of maximum annual special tax in order to pay debt service on a timely basis. The Mello-Roos Act states that the annual special tax levy may not be increased for Developed Parcels in the CFD by more than 10 percent from one year to the next to cure special tax delinquencies.

Pay-As-You-Go Expenditures

The proceeds of the special tax levy may be used for Pay-As-You-Go Expenditures. Pay-As-You-Go Expenditures allow for the acquisition of Authorized Facilities of the CFD with annual special tax proceeds. There will be no allocation of the proposed special tax levy for Pay-As-You-Go Expenditures.

Annual Escalation of the Maximum Annual Special Tax

The Maximum Annual Special Tax was established for Developed Parcels, Final Map Parcels, Large Lot Parcels, and Undeveloped Parcels in FY 2005-06, the Base Year. Developed Parcels were assigned a Maximum Annual Special Tax by Village. Three different Maximum Annual Special Tax rates were assigned to Villages in FY 2005-06. The amounts were \$1,300, \$1,500, and \$1,700. The special tax rates corresponded to average lot sizes for each Village, with smaller lots being assigned an initial Maximum Annual Special Tax of \$1,300, and the largest lots assigned \$1,700. The same Maximum Annual Special Tax is applied to all parcels in a Village, even though there may be a slight variation in lot sizes within a Village.

In each Fiscal Year after the Base Year, the Maximum Annual Special Tax per unit or acre is increased by 2 percent. **Table 4** shows the calculation of the annual escalation from the Base Year to FY 2009-10 for each tax category and Village. This is the fourth year that the Maximum Annual Special Tax is to be increased. The calculation for each tax category and Village is as follows.

Table 4
Olivehurst Public Utilities District
North Plumas Lake CFD No. 2005-1 (Wheeler Ranch)
Annual Escalation of Maximum Annual Special Tax for FY 2009-10

Tax Category/ Village	Base Year 2005-06 Max Tax	FY 2009-10 Max Tax [1]
	<i>a</i>	$b = a * 1.02^4$
Developed Parcels	<i>per unit</i>	<i>per unit</i>
Phase I		
Village 1-2	\$1,300	\$1,407.17
Village 1-3	\$1,500	\$1,623.65
Village 1-4	\$1,700	\$1,840.14
Village 1-5	\$1,700	\$1,840.14
Village 1-6	\$1,300	\$1,407.17
Village 1-7	\$1,300	\$1,407.17
Phase II		
Village 2-1	\$1,500	\$1,623.65
Village 2-2	\$1,300	\$1,407.17
Village 2-3	\$1,300	\$1,407.17
Village 2-4	\$1,700	\$1,840.14
Village 2-5	\$1,500	\$1,623.65
Final Map Parcel	<i>per unit</i> \$1,425	<i>per unit</i> \$1,542.47
Large Lot Parcel	<i>per unit</i> \$1,425	<i>per unit</i> \$1,542.47
Undeveloped Parcel	<i>per acre</i> \$5,220	<i>per acre</i> \$5,650.30

"tax_esc"

[1] The Maximum Annual Special Tax is increased by 2% in each Fiscal Year following the Base Year 2005-06.

$$\text{FY 2008-09 Max Tax} = \text{Base Year Max Tax} * 1.02^4$$

Compute the Special Tax Levy for FY 2009–10

The Special Tax Formula instructs the Administrator to first determine the Annual Costs of the CFD. The estimated Annual Costs of the CFD (as shown in **Table 2**) are \$377,337. The amount of Special Tax that can be collected by levying the Special Tax up to the maximum rate will equal the amount of Annual Costs shown in **Table 2**. Therefore, the special tax will be levied at 50 percent of the maximum for all Developed Parcels. The special tax will not need to be levied on Final Map Parcels, Large Lot Parcels, or Undeveloped Parcels in FY 2009-10 to fund Annual Costs. **Table 5** shows the special tax levy requirement by tax category for FY 2009-10.

Amount of Special Taxes to Be Levied in FY 2009–10

Exhibit A shows the amount of special tax to be levied for each taxable parcel in FY 2009–10. The amount to be levied on each Developed Parcel is equal to 50 percent of the maximum special tax that may be levied for a parcel in each tax category.

Overall Tax Burden for Developed Parcels

When the CFD was formed, the estimated overall tax burden was estimated to be 1.7 of the sales price for homes in each of the three tax categories. Each tax category represented a typical lot size, with the lowest special tax assigned to smaller lots, and the highest special tax assigned to largest lots. The estimated sales prices for homes were based on market rates from early 2005. As we now know, those market rates have significantly decreased for homes in the CFD.

The overall tax burden takes into consideration the Proposition 13 property tax rate of 1 percent, any General Obligation Bonds approved by voters, special taxes, and assessments. In addition to the CFD, the District formed a Mello-Roos District over Wheeler Ranch (CFD No. 2005-2) which would provide a funding mechanism for the maintenance of parks once constructed. This special tax is currently not proposed to be collected in FY 2009-10, but must be considered as part of the eventual overall tax burden. Land owners in certain parts of Yuba County approved the Three Rivers Levee Improvement Authority assessment to fund levee maintenance costs. The amount of the proposed assessment for Wheeler Ranch is \$148 annually. RD 784 collects an assessment of \$53 annually to maintenance drainage systems. Yuba County collects an assessment for CSA 66 to fund a series of maintenance operations and services, such as road maintenance, street lighting, open space maintenance, drainage maintenance, fire services, and park maintenance. This amount was \$403 in FY 2008-09 and is increased with inflation each year.

Table 6 shows the overall tax burden for each of the tax categories, as designated by the maximum annual special tax for the CFD. The table uses the proposed actual special tax levy within the CFD to show the effective overall tax burden for each category in FY 2009-10. The home prices are based on recent home sales from early 2009, as shown on the records of the County Assessor.

Note that the overall tax burden ranges from 1.87 percent to 2.09 percent. When considering the maximum annual special tax for the CFD, the overall tax burdens increase to a range of 2.26 to 2.56 percent of the recent homes sale prices.

Table 5
Olivehurst Public Utilities District
North Plumas Lake CFD No. 2005-1 (Wheeler Ranch)
Proposed Assignment of the Special Tax Levy - FY 2009-10

Tax Category	Taxable Parcels	Taxable Units/Acres	Maximum Annual Special Tax Per Unit	Maximum Annual Special Tax Revenue	Special Tax Levy Requirement FY 2009-10	Proposed Special Tax Levy Per Unit	Special Tax Levy Amount FY 2009-10	% of Total

Total Tax Burden - Max Special Tax Levy [5]		2.56%	2.26%	2.36%

"2_percent"

[1] From the records of the County Assessor as of April 2009.

[2] Proposed debt service will require a special tax levy of 50% of the maximum annual special tax rate for Developed Parcels.

[3] This CFD was formed to provide a funding mechanism for the maintenance of parks in Wheeler Ranch. As parks have not yet been developed, this special tax has not been levied and collected in previous fiscal years. It is not currently proposed to be levied and collected in FY 2009-10.

[4] With the proposed special tax levy at 50% of the maximum special tax, this would be the overall tax burden for existing homes, based on recent sales prices.

[5] This represents the approximate overall tax burden for existing homes in FY 2008-09.
