

Olivehurst Public Utility District

Agenda Item Report

Meeting Date: March 11, 2021.

Item description/summary:

Emergency purchase of Extrication Equipment:

Requesting extrication equipment to replace outdated and broken equipment. The extrication equipment that OFD is currently using is between 15 - 25 years old. We learned through our annual testing of the extrication equipment, one of the pumps is not able to operate at the pressure need. We also learned the extrication equipment existing has reached the end of its usable lifespan and is in need of replacement. We are in need of extrication equipment that is capable of handling modern metals which require higher cutting and spreading forces. I have attached a copy of the quote of the equipment needed to bring our extrication equipment up to standards. I would recommend using Western Extrication Specialists. Through collaboration of services most of the departments have or are purchasing the same extrication equipment. With most of the departments purchasing the extrication equipment we will receive a 7% discount through Western Extrication Specialists and their team Holmatro. Their team has been approved through NPP.G (National Purchasing Partners. Government). Contract number is PS20035.

Fiscal Analysis:

I have attached the Engine rental income from strike team for review. We would use \$55,144.03 out of Engine Reimbursement earmarked for equipment replacement and equipment reserve.

Employee Feedback

Staff is excited for the new extrication equipment.

Sample Motion:

Move to allow staff to purchase Extrication equipment through Western Extrication Specialist not to exceed \$55,144.03 using Engine rental income from strike team earmarked for equipment replacement.

Prepared by:

Fire Chief Randy York

STRIKE TEAM ENGINE REIMBURSEMENT

Incident	Engine Reimbursement	Personnel	Admin	Total
